Profile

Full-stack developer specialized in JavaScript / TypeScript, with 5 + years of experience building scalable, high-performance web applications. Skilled in React, Next.js, and Node.js, I design and implement efficient systems that improve user engagement and business visibility. Adaptable, detail-oriented, and passionate about clean code and automation, I seek a full-time developer role in Paris

Technical Skills

React · Next.js · TypeScript · Node.js · AngularJS · Tailwind CSS · Prisma · PostgreSQL · REST API · Tests (Vitest / Jest) · Zod · CI/CD (GitHub Actions) · Git · UX / Accessibility

Languages

French – Native / Professional| English – Fluent.

Professional Experience

Freelance Software Developer — International | 2021 – Present

- Design and optimization of custom web applications to improve online presence and user engagement.

- Development of full-stack solutions using Next.js, Gatsby, and headless CMS integrations for scalable projects.

- Collaboration with international teams to deliver high-quality, maintainable codebases.

Full-Stack Developer Freelance — Paris | 2018 – 2021

- Built and maintained full-stack web applications for clients including AXA and Ekwateur

- Delivered performant, secure REST APIs and optimized front-end components.

- Improved development workflows and ensured production-grade stability.

Consultant JavaScript — Zenika — Paris | 2017 – 2018

- Consulting and software development for enterprise clients on full-stack JavaScript projects.

- Participated in internal application refactors, CI/CD pipeline setup, and modernization of ES6 + codebases.

- Supported development teams transitioning to modern JavaScript practices and tooling.

Co-founder / CTO — MIUUZ — Paris | 2016 – 2018

- Led the technical direction of a startup focused on innovative digital products.

- Developed a cross-platform app with React, React Native, Node.js (Hapi), and AWS backend.

- Managed development cycles and product strategy in an agile, fast-paced environment.

Web Developer— Wolfox Agency — Paris | 2015 – 2016

- Built web applications with AngularJS and integrated CMS platforms (WordPress / PHP).

- Developed corporate websites and internal tools for diverse clients.

- Ensured UX/UI consistency, responsive design, and technical maintenance.
